SPECS

As the name implies, the series Beach Pebble is inspired by the pebbles found on the beachside. A soft honed surface texture, with naturally shaped pebbles it feels wonderful on the feet. This product should be sealed for protection. It can be sealed with either a natural (right side) or enhancing (left side) sealer depending on preference.

## 12" x 12" Sheet

White Sea Shell 102-00558-6

Sand Dollar Beige 102-00557-2

Black Sand 102-00556-8

### General Specification

Material: Natural Stone  
Intended Use: Floor & Wall

### 12" x 12" Sheet

Box Qty: 11 sheets  
Coverage: 1 sqft/sheet

This is a natural stone product; we recommend sealing it. It can be sealed with an enhancing sealer to bring out the color, or a natural look sealer to retain the dry look of the stone. The loose mosaics in the box will look significantly different than the sample board until sealed with an enhancing sealer. To verify the shade before installation, please wet the pebble sheets with water. This will simulate the enhancing sealer (without the shine) so you will be able to confirm the color and shade. We recommend Stonetech or Omni brand Enhancing Sealer for best performance. Pricing and specification may change without notice. Sizes shown in inches and are approximate.
